COCOPEA STATEMENT OF SUPPORT FOR K-12

THE COORDINATING COUNCIL OF PRIVATE EDUCATIONAL ASSOCIATIONS (COCOPEA) SUPPORTS THE INITIATIVE OF THE LEGISLATURE TO PASS ONE OF THE PRIORITY BILLS OF H.E. PRESIDENT BENIGNO S. AQUINO III ON EDUCATION, "THE ENHANCED BASIC EDUCATION ACT OF 2012" OR THE K-12 BILL, ADDING TWO YEARS OF HIGH SCHOOL IN THE BASIC EDUCATION CYCLE.

COCOPEA is the umbrella group of private education in the Philippines with more than 2,000 member institutions and is made up of five educational associations: Association of Christian Schools, Colleges, and Universities (PACSCU), Catholic Educational Association of the Philippines (CEAP), Philippine Association of Colleges and Universities (PACU), Philippine Association of Private Schools, Colleges, and Universities (PAPSCU), and the Technical-Vocational School Associations of the Philippines (TVSAP).

We thank our Congressmen and Senators responsible for their respective congressional drafts.

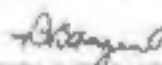

We strongly believe that our country urgently needs the major reform in our basic education system that would develop responsible and productive citizens equipped with the **ESSENTIAL 21ST CENTURY COMPETENCIES, SKILLS, and VALUES** for life-long learning and employment. We readily raise the overall quality of education starting with the passage of K-12.

We believe that our country must catch up with the rest of the world in terms of basic education to make our graduates not only **GLOBALLY COMPETITIVE** but **RECOGNIZED as PROFESSIONALS** in the international community. Already, we are being left behind.

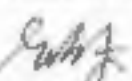

WE, THEREFORE, URGE THE HOUSE OF REPRESENTATIVES AND THE SENATE OF THE PHILIPPINES TO FASTEN THE PASSAGE INTO LAW OF "THE ENHANCED BASIC EDUCATION ACT OF 2012" OR THE K-12 BILL.

Lawmakers defend libel provision in cyber law

By Lili S. Edwards

WASHINGTON, D.C. — Lawmakers are defending a provision in the Cyber Security and Information Privacy Act (CSIPA) that would allow a state to sue a person who publishes a false statement of fact about another person. The provision is part of a larger bill that would also require a person to prove that a statement is false before it can be considered libelous.

Sereno vows 'judicial bliss' by making the most of 18 yrs in office

By Richard Lee Lim

MANILA (Special) — Chief Justice Renato Corona has vowed to make the most of his 18-year tenure in office, despite the challenges he faces.

Corona, who was sworn in as Chief Justice on September 1, 2008, said that he is determined to serve the people and the country with integrity and honesty.

He also said that he is committed to upholding the rule of law and the constitution, and to ensuring that the judiciary remains independent and free from political interference.

Corona's vow comes as he faces a number of challenges, including the ongoing debate over the proposed judicial reform bill, which would allow for the appointment of judges by the President.

Despite these challenges, Corona remains optimistic about the future of the judiciary, and believes that he can make a positive impact during his tenure.

Mar gets CA nod quickly, thanks to Miriam's high IQ

By Richard Lee Lim

MANILA (Special) — President Gloria Macapagal Arroyo has quickly approved the proposed judicial reform bill, which would allow for the appointment of judges by the President.

The bill, which was introduced by the Department of Justice, has been a controversial issue for some time, as it raises concerns about the independence of the judiciary.

Arroyo's quick approval of the bill has been seen as a victory for the Department of Justice, and as a sign that the President is committed to reforming the judiciary.

The bill is expected to be signed into law soon, and will have a significant impact on the way judges are appointed in the Philippines.

Figure 1: A schematic diagram of the experimental setup for the study of the effect of the initial concentration of the polymer solution on the morphology of the polymer blend. The diagram shows a cross-section of a polymer blend film. The top layer is labeled "Polymer solution" and the bottom layer is labeled "Polymer blend". The interface between them is labeled "Interface". The thickness of the polymer solution layer is indicated as h and the thickness of the polymer blend layer is indicated as H . The total thickness of the film is indicated as $H+h$. The diagram also shows the initial concentration of the polymer solution as C_0 and the initial concentration of the polymer blend as C_1 .

The first step in the process is to identify the problem. This involves gathering information about the situation and the people involved. Once the problem is identified, the next step is to analyze it. This involves breaking the problem down into its component parts and determining the causes of the problem. The third step is to develop a plan of action. This involves determining the steps that need to be taken to solve the problem. The fourth step is to implement the plan. This involves putting the plan into action and monitoring the progress. The final step is to evaluate the results. This involves determining whether the problem has been solved and whether the plan was effective.

All the family, with necessary and deepest gratitude
to the religious, friends and former students
of the Faculty of Medicine and Surgery at the University of Santo Tomas,

*"Now I am about to go the way of all the earth. You shall work all your heart and soul and that not
one of all its good promises be broken; you shall give your life to the Lord. Every promise has been
fulfilled, and you are free." — Joshua 23:14*
